17. How could the TA improve his/her teaching?

Joe-Ho is a very good TA. Possibly the best TA I have had. He is prepared, knowledgeable, and a very likeable person. He has certainly improved throughout the semester and he certainly tries very hard to be an effective TA. It has been a pleasure taking his discussion.

17. How could the TA improve his/her teaching?

I honestly don't think he can. I come in confused about the last lesson and he always goes over the section and I leave with a MUCH better understanding. In fact, I don't want him to change any part of his teaching.

18. What do you like most about the TA's teaching?

While he is an excellent teacher, my favorite part is his ability to laugh at himself and joke around. I learn and remember the class enjoyable.

19. What do you think of the homework and quizzes? Please include comments on the grading.

In the beginning the quizzes were pretty easy, but lately they have been harder and (hopefully) an accurate judge of my math skills.
