Fall 2011

17. How could the TA improve his/her teaching?

(Math 340, Fall 2011)

He's great. ^{His} English could be better but it doesn't really interfere with his teaching.

18. What do you like most about the TA's teaching?

He explains things very clearly, and anticipates what may have confused us during lecture. Uses discussion time well.

19. What do you think of the homework and quizzes? Please include comments on the grading.

Quizzes are good. They aren't too hard or too easy and they test well what we should have learned to do in the homework.

He doesn't grade the homework, a grader does it.

Any further comments:

Jae-ho is a very, very good TA. He's always so prepared, returns quizzes, tests and homework in a timely manner. Plans our discussion time effectively and efficiently.

Jae-ho is the best math
